Important

Before plugging the unit into the mains, ensure by visual inspection that the unit is intact and has not suffered any damage during transit.

Caution

The appliance must be always placed on a flat and stable surface.

In order to avoid a hazard due to inadvertent resetting of the thermal cutout, this appliance must not be supplied through an external switching device, such as a timer, or connected to a circuit that is regularly switched on and off by the utility.

For your own safety

1. Read all instruction before using the heater.
2. Only connect the heater to a single-phase socket with a mains voltage as specified on the rating plate.
3. Do not leave your home while the appliance is in function: ensure that the switch is in OFF (0) position and the thermostat is in minimum position. Always unplug the appliance.
4. Keep combustible material such as furniture, cushions, bedding, paper, clothes, curtains etc. at least 100cm away from the heater.
5. Do not hand anything on or in front of the heater.
6. Always use the heater in an upright position.
7. Do not place the heater against walls, furniture, curtains, etc.
8. Do not use the appliance in rooms less than 4m² area.
9. Always unplug the heater when not in use. Do not pull the cord to unplug the heater.
10. Keep the air inlet and outlet free from objects at least 1m in front and 50cm behind the heater.
11. Do not install the heater immediately below a socket-outlet.
12. Do not let animals or children touch or play with the heater. Pay attention the air outlet gets hot during operation.
13. Do not cover. If covered, there is the risk of overheating.
14. Do not use this heater in the vicinity of showers, bath tubs, wash basins or a swimming pool etc.
15. Do not use the heater in the rooms containing explosive gas inflammable solvents, varnish or glue.
16. Keep the heater clean. Do not allow any objects to enter any ventilation or exhaust opening as this may cause electric shock, or fire or damage to the heater.
17. If the heater has been dropped or damaged it should not be used until it has been inspected by a qualified service center.
18. Close supervision is necessary when the heater is being used by or near children, persons suffering from any physical impairment or pets.
19. Do not use to dry clothes or any fabric.
20. Do not use the heater to dry your laundry. Never obstruct the intake and outlet grilles (danger of overheating).
21. Do not move the appliance while it is functioning in order to avoid overheating with the additional risk of fire.
22. If any part of the heater or supply cord becomes damaged, it must be replaced by a qualified electrician. In order to avoid a hazard.
23. The heater must not be located immediately below a socket-outlet.
24. Do not use this heater with a programmer, timer or any other device that switches the heater on automatically, since a fire risk exists if the heater is covered or positioned incorrectly.
25. Do not leave the heater switched on when leaving your home or going to sleep.
26. Children should be supervised to ensure that they do not play with the appliance.
27. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience or knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
28. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
29. Children of less than 3 years should be kept away unless continuously supervised.
30. Children aged from 3 years and less than 8 years shall only switch on/off the appliance provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
31. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.
32. Do not leave unattended when plug in to the mains supply.

⚠️ Caution
Some parts of the heater can become very hot and cause burns. Do not touch hot surfaces. Particular attention has to be given where children and vulnerable people are present.
Note
These heaters are intended for domestic use only. They can be used as both portable appliance and wall mounting appliance.

Product features
1. Elegant black glass panel.
2. High quality aluminum heating element: quick heating with higher energy savings.
3. Touch screen control and remote control.
4. Timer from 1 to 24 hours to turn the convectors heater on or off at the desired time.
5. Digital display with automatic room temperature display.
6. For wall mounting or free standing with tripod.

Installation (While use on the floor as portable appliance)
Please attach the feet on the heater’s housing, and fixing them with supplied ST4x10x3mm screws.

Wall mounting (While use the heater as fixed appliance)

Please note that the product must be installed at least 15 cm from the floor and 50 cm from the ceiling.
- For wall mounting study scheme
1. Install the bracket with screws firstly, see the image1
2. Drill the holes at each sides on the wall, then insert the plastic expanded plugs within,
   Fix the bracket in the wall with screw, see the image2
3. Fit the heater into suitable position ensuing that the holes align with bracket. see image3
4. Tight the screw on the top of bracket to catch steady
Operation

Insert the plug into a suitable socket outlet on an A.C. power supply having the same voltage as that shown on its rating label.

The touch screen buttons located on the product correspond to the remote control functions:

1. Display
2. Temperature “+” button
3. Temperature “-“ button
4. Power button
5. Mode button
6. Timer button
7. Receiver
8. Child clock button

Power function

Before you working the heater, your should turn on the switch in side.

Press “

Press “

Mode

Press “

Temperature

Internal temperature is displayed every time the appliance is started up. The temperature can be set when the appliance is in stand-by or heating. When the room temperature reaches the set level, the high temperature power stops and the low temperature power remains active. When room temperature is 2 degrees over the set temperature, both the high and lower temperature powers will stop operating. The machine will begin operating again only when temperature decreases 2 degrees with respect to the set temperature.
Temperature selection
Press "+" or "-" button to select the desired temperature from a range of 16°-40°C. The temperature indicator will remain lit for a long time.

Timer
Press the timer button "⏰", to select the desired range between 1 hour to 24 hours. The remaining time will appear.

Child clock
Press the child clock button 3 seconds, "🔒" will be displayed on the screen, so you cannot make any operate beside "🔒", and same ways to touch to delete the child clock function.

Operating sound
The appliance emits a beep upon each operation setting.

Cleaning and maintenance
Before cleaning always remove the plug from the electrical socket outlet. Clean the air inlet and outlet grilles frequently. Never use abrasive powders or solvents. Always clean using a slightly moist cloth and wipe dry using a soft clean cloth.
NOTICE ABOUT RECYCLING

Your product is designed and manufactured with high quality materials and components which can be recycled and reused.

This symbol means that electrical and electronic equipment, at their end-of-life, should be disposed of separately from your household waste.

Please dispose of this equipment at your local community waste collection/recycling centre. In the European Union there are separate collection systems for used electrical and electronic products.

Please help us to conserve the environment we live in!
