FAN HEATERS USER INSTRUCTIONS

Model: UHF-861

230V~ 50Hz 2000W

This product is only suitable for well insulated spaces or occasional use.

WARNING: READ THIS OWNER'S MANUAL CAREFULLY BEFORE USE

INTRODUCTION

Thank you for purchasing this product. Read the instructions carefully and keep them for further reference.

IMPORTANT SAFEGUARDS

When using any electrical appliance basic precautions should be followed.

Please read the following instructions as they are for your benefit and safety:

1. Make sure the power supply used corresponds to the rating label.
2. Never obstruct or block any openings of the heater.
3. Use the heater only on a flat surface.
4. Always disconnect the appliance from the main power supply when not in use and when cleaning.
5. Do not leave the heater unattended while operation.
6. Never cover the heater as this may lead to risk of fire.
7. Keep the appliance a distance of at least 90 cm from any combustible material such as furniture, curtains, bedding, clothes or papers.
8. Do not use this heater in the immediate surrounding of a bath, a shower or a swimming pool.
9. Do not immerse the heater in water or allow water to come into contact with the plug or control device.
10. Keep this heater clean. Do not allow objects to enter the ventilation opening as this may cause electric shock, fire or damage to the heater.
11. Close supervision is required when any appliance is used near or by children.
12. Never allow the cord to touch wet or hot surfaces, become twisted or within the reach of children.
13. Do not use outdoors
14. Do not place on or near a hot gas electric burner.
15. If the supply cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.
16. Do not use the appliance for other than its intended use as described in this instruction book.
17. Do not place the heater immediately below a socket outlet.
18. This appliance is intended for household use only.
19. Do not leave the heater turned on overnight.
20. While cleaning, make sure not to use a wet cloth or water on any part of the unit, as this may cause a short circuit or electrical shock.
21. Do not use this unit in any area where water is present.
22. Make sure the power cord is placed at the back side of the heater.
23. The heater should not be used in a room of which the floor area is less than 5 m².
24. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
25. Children of less than 3 years should be kept away unless they are continuously supervised. Children aged from 3 years and less than 8 years shall only switch on/off the appliance

provided that it has been placed or installed in its intended normal operating position and they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children aged from 3 years and less than 8 years shall not plug in, regulate and clean the appliance or perform user maintenance.

26. Caution: Do not cover the your heater when in use.

27. The fan-heater must not be placed near a socket.

28. This fan-heater must not be used near a bath, shower or swimming-pool

KEY/PARTS LOCATION

1. Indicator light
2. Thermostat switch
3. Air outlet
4. ON/OFF switch control

HOW TO OPERATE

1. Remove the unit from the box and take off any protective wrapping.
 2. Place the heater on a smooth level surface and least 30cm away from any obstacles.
 3. Plug your fan heater into the power supply. Make sure your power supply corresponds to the power indicated on the rating label.
 4. Heat temperature setting can be regulated using the switch located at the bottom of the heater. This switch is used for both the fan and heat elements. Note the fan speed cannot be adjusted and will always remain constant.
- * Fan- for a lower power air circulation; Turn the dial on the right clockwise, once for the fan function
 - * Low- Turn it twice for the Medium heat setting (1000W). This setting is best suited for smaller, well-insulated areas.
 - * High- Turn the switch once more for High setting, or full power (2000W). Delivers rapid warm air to increase the temperature to a given area.

OVERHEATING SAFETY DEVICE

Your heater has a safety device that switches off the heater in the event of overheating.

Should the heater stop working, turn the heater off and inspect of blockage of inlet or outlet. Wait at least 5 minutes of the protection system to reset before restarting the heater.

If the heater fails to operate the safety device switches the heater off again, return the heater to your nearest service center for examination or repair.

CLEANING YOUR FAN HEATER

1. Always disconnect the appliance from the main supply before cleaning.
2. Clean the outside of the heater by wiping with damp cloth and guff with a dry cloth.
3. Do not use Benzine or any other detergents/solvents or chemical agents to clean the heater.

SERVICE

Hints before returning the appliance:

Is your household socket working properly?

Are all required switches in the “ON” position?

Ensure that the plug is firmly in the socket and switched on.

Ensure the heater if standing on an even surface.

NOTE: If the power cord, or plug is damaged, an Amalgamated Appliance service center or an official agent must replace it.

Model identifier(s):		UHF-861			
Item	Symbol	Value	Unit	Item	Unit
Heat output				Type of heat input, for electric storage local space heaters only (select one)	
Nominal heat output	P_{nom}	1,85	kW	manual heat charge control, with integrated thermostat	[no]
Minimum heat output (indicative)	P_{min}	0,016	kW	manual heat charge control with room and/or outdoor temperature feedback	[no]
Maximum continuous heat output	$P_{max,c}$	1,85	kW	electronic heat charge control with room and/or outdoor temperature feedback	[no]
Auxiliary electricity consumption				fan assisted heat output	[no]
At nominal heat output	el_{max}	N/A	kW	Type of heat output/room temperature control (select one)	
At minimum heat output	el_{min}	N/A	kW	single stage heat output and no room temperature control	[no]
In standby mode	el_{SB}	N/A	kW	Two or more manual stages, no room temperature control	[no]
				with mechanic thermostat room temperature control	[yes]
				with electronic room temperature control	[no]
				electronic room temperature control plus day timer	[no]
				electronic room temperature control plus week timer	[no]
				Other control options (multiple selections possible)	
				room temperature control, with presence detection	[no]
				room temperature control, with open window detection	[no]
				with distance control option	[no]
				with adaptive start control	[no]
				with working time limitation	[no]
				with black bulb sensor	[no]
